Glimpses of Utopia: 16 - 23

Thursday, September 20, at 7:00 P.M.

at the Historic Fire Station Old 23 located 225 E. 5th Street, downtown

THIS EVENT IS FREE.

"Glimpses of Utopia" performance events are part of the Skid Row based theater group, Los Angeles Poverty Department's, project UTOPIA / dystopia. UTOPIA / dystopia, seeks to find out how flesh and blood people living and working downtown envision the future of downtown and what kind of downtown they would like to be a part of.

Tonight's performance event "Glimpses of Utopia: 16-23" follows our June event "7 Glimpses of Utopia" at JANM and July's "Glimpses of Utopia: 8-15" at the Red Dot Gallery. These events take the form of a Come Together, a community performance strategy conceived by UTOPIA / dystopia collaborating artist and 2006 Alpert Award winning visual artist Harrell Fletcher. (www.harrellfletcher.com; www.learningtoloveyoumore.com) LAPD'ers and others were asked to identify and invite someone they knew who was doing something laudable, and important, something that represents the best of the current and future downtown.

The people invited are asked to do a 10 minute presentation, in any form they see as appropriate, about what they are doing to downtown and how they would like to see the future of downtown evolve. The presentations can be a performance, a demonstration or a lecture. The presentations happen back to back, combining the insight and passion of both inviters and presenters. Taken all together, tonight's presentations become a performance event that provides " **Glimpses of Utopia: 16 - 23**"

ABOUT LAPD's UTOPIA / dystopia

One person's utopia is another's dystopia. In the past 40 years, civic policy in Los Angeles has generated the twin towers of utopia and dystopia: Bunker Hill, the redeveloped high rise financial center; and below it, Skid Row. The current real estate boom is generating new social policy, including the possible displacement of the majority population of poor people living in the area.

LAPD is a community based theater in the heart of Los Angeles' Skid Row area; an area which has the largest concentration of truly affordable housing for very low-income residents and also the largest concentration of services for homeless people in Los Angeles County. The area also has a highly developed drug recovery culture, which includes free recovery programs. Skid Row is the home of numerous AA, NA And CA groups.

What is the future vision for downtown Los Angeles? A powerful urban core that will dominate the city in the future is taking shape. But, what shape? Is the desired "new urban lifestyle" an upscale monoculture, or, is the vitality of city life essentially about a dynamic cultural, racial and economic mix?

LAPD's **UTOPIA / dystopia** will engage long standing and new area residents to inform and broaden the public discourse, and use performance, public art, conversations, and convenings to articulate grassroots visions of the city's future. **UTOPIA / dystopia** will result in performances DEC. 6-9 at THE REDCAT THEATER that articulate the dreams and fears of people in the neighborhood.

About THE FIREHOUSE CULTURAL CENTER AND OUR COMMUNITY
By Daniel Taylor

The purpose of a “Downtown Cultural Center” is to house and develop scientific, historic, artistic and civic, projects, exhibits and events for the cultural and commercial development of our Downtown community in the interest of our residents, workers and visitors.

The Corporation for History, Art and Culture (CHAC) believes that Historic Fire Station Old 23 located 225 E. 5th Street in the Central City East community of Los Angeles must be administered and maintained in the public interest. Initially, CHAC’s plan is to restore this great building and to fully utilize its obvious architectural and acoustic assets in the most practical and beneficial way possible. Once restored, this United States and Municipal Historic Landmark, Fire Station 23, properly managed as a Central City East Cultural Center, will be a revenue generating machine which will contribute significantly to the development of our community’s precious human resources as well as Downtown’s culture and commerce.

Old 23 is already world famous as a location for many movie and other media productions. As a Cultural Center and community asset, it will serve the arts and community service organizations of our community. The Center will also endeavor to hire local residents for skilled and unskilled work both during and after restoration, whenever possible, thus serving as a source of income for our local residents.

This building will include an Exhibit Hall/Event Venue and a state of the art Multi-Media Production/Artist Training and Development Facility.

It will serve as a place to create, develop and present the culture of our local community through our technical and creative artists, thinkers and organizations and inspire us through the work of others from around the world.

It will enrich our lives daily with exhibits and presentations of art, science, history, and civic interest displays. Local artists will have a place to display their work, which will be changed according to the volume of artwork submitted. The art and campaigns of our community’s youth will also be regularly presented at the Center.
